

Genealogy research files – Stack 2-B

Files include correspondence from inquirers and responses from staff and volunteers of Lockwood House (1975-1997), Norwalk Museum (1997-2013) and the History Room at Norwalk Public Library (2013-). Some files are minimal, others may include original research sent and received. The History Room cannot guarantee that the information included is complete, accurate, or has not been since updated elsewhere. Upon request, History Room staff will consult these files and copy or transcribe contents for patrons.

Other genealogical resources: Published books (cited on this Genealogy page) are included in the library catalog; documents and information included in specific family and manuscript collections are cited in the Manuscripts & Ephemera section of the History Room webpage.

At the beginning of **BOX 1** is placed a folder titled “**Genealogy – Early Vital Records.**” In it is a 23-page photocopy of handwritten extractions (created before 1880 by Charles Henry St. John) of vital records from Norwalk early land books not found in Hall’s *Ancient Records*. Unlike the Barbour index, which it may otherwise duplicate, the information is grouped by family. The marriages from this document are indexed elsewhere on this Genealogy page.
